

## **Certificate of Insurance and License Registration No Longer Required in the City of Naples.**

The City of Naples has an intergovernmental agreement with Collier County to provide all contractor license enforcement. Moving forward the City will be pulling contractor licensing data electronically from Collier County. Please make sure you register with Collier County licensing to ensure there are no delays in your permitting

in the City of Naples. This new policy will eliminate duplication of governmental requirements and remove barriers that complicate and delay permit application processing. Contractors need only to register and stay active with Collier County Licensing to obtain permits and inspections in the City of Naples.
