

Development Services Task Force
Notes of May 6, 2016

I. Unfinished Business

- A. Training Update: Training on electronic process should be scheduled for sometime after start-up which has been pushed back to June. As soon as the training dates are scheduled they will be advertised to all.
- B. Kathy shared that Mark Strain expressed concerns with taking anything to the current BCC. However, we need to continue to push for redevelopment code.

II. Other Business:

A. Suggestions Moving Forward:

- Contact Mike Bosi to focus on better connecting with his folks re: changes discussed through Development Services Task Force. Specific priorities for discussion include current process/timing of zoning applications
- Bring Development Services Task Force together again in the Fall to evaluate our work/progress made on various agreed upon points.
